MIS system will facilitate digitisation of data to achieve project's outcomes efficiently: Dr Sunil Chauhan

***Training on MIS for project's field & office staff held**

Hamirpur, 04 May:

Training of the staff from DPMU Hamirpur and BPMUs-Bilaspur, Hamirpur & Una on MIS was conducted here on Monday (May 04, 2026) to strengthen the data collection, recording and processing. The experts apprised the participants the efficient system of MIS, which can be used

through Mobile App in the field which can be easily accessible all the time when required to be used.

While presiding over the training Dr Sunil Chauhan, the Project Director of the HP Crop Diversification Promotion Project-II (HPCDP-II) has said that the project has envisaged the efficient use of MIS

system, which has been customized as per the project's needs for handling variety of data from infrastructure development, production of crops, their handling and marketing. He said the customized MIS system will facilitate quick use of digitized data for the welfare of farmers families for achieving project's outcomes efficiently. The Finance Officer of the project Sh. Pradeep Sharma was also present in the training. In all 35 trainees attended the training from DPMU, Hamirpur and BPMUs of Hamirpur, Bilaspur & Una.

The experts from Cyber Swift Development flanked by the ICT Expert of the PMC and the ICT-Cell of the State Project Management Unit (SPMU).
