Team ensures verification of milch cattle in Banoli Khas of BPMU Jawali

Jawali, Sept 18:- A project team ensured verification of the milch cattle under the Livelihood Support Activity in LIS Banoli Khas on Sept 18.

The team comprised Officer present Dr. Lakshit Choudhary BPM Jawali, Ms. Pooja AE & Ms. Sonali AEO supported by Dr. Priyanka Thakur, Veterinary Officer, Baroh.

The sub-project LIS Banoli Khas has a total of 51 beneficiaries, out of them three beneficiaries Sh. Shamsher Singh, Sh. Naresh Kumar and Sh. Raj Kumar have been provided the milch cattle (buffaloes) under the Livelihood Support Activity. These three farmers were selected by the Krishak Vikas Association.

The team physically verified the distributed indigenous buffaloes as per the project guidelines. The veterinarian carried out detailed health check-up and assessed the status of the buffaloes. The team tagged unique identification tags to the indigenous buffaloes for proper tagging, tracking, insurance and future monitoring. The team held interaction with beneficiaries regarding scientific management practices, balanced feeding, and care of milch cattle for optimum milk production.

Dairy as the Livelihood Development Component is a key pillar of the project, focusing on creating additional and sustainable income sources for small and marginal farmers through livestock-based enterprises.

This intervention will ensure nutritional security, regular income through high-quality milk production, and will significantly strengthen the socio-economic status of the farming families.
